

## Tenba Roadie II Large Rolling Photo/Laptop Case \$200

*The Tenba Roadie II Large Photo/Laptop Case is designed to carry and protect a medium sized professional D-SLR camera, HD video camcorder or medium format camera system. It also holds a laptop sleeve containing a computer with a screen up to 17" plus documents and accessories. Large D-SLR camera bodies with mid-range zoom lenses can be stored standing up; super telephoto lenses will fit with their hood and tripod collar in place. The case meets U.S. domestic airline carry-on standards, as well as the standards for many international flights. The photo section features fully adjustable/removable, padded dividers, and can be configured to accommodate a D-SLR with mounted lens.*

The Tenba Roadie II Large Rolling Photo case is made from weatherproof ballistic nylon for the exterior, with an EVA molded interior and a heavy-duty tricot interior.
